RE: Docket No. I-V03-925-1PR  
Federal Register Vol. 70, No. 100, Page 30001  
Grapes Grown in a Designated Area of Southeastern California and Imported Table Grapes; Proposed  
Change in Regulatory Period  
**COMMENTS IN OPPOSITION TO PROPOSED CHANGE**

Dear Docket Clerk:

Polcura Exportaciones S.A. opposes the above referenced change in the effective date of Table Grape Marketing Order 925 and the companion Table Grape Import Regulation 4 that will further restrict table grapes supplied from Chile. Polcura Exportaciones S.A. is in the business of exporting Chilean agricultural commodities, and ships approximately 230,000 boxes of fresh table grapes to the U.S. during the months of November through May.

Polcura Exportaciones S.A. concurs with, and incorporates herein by reference, the detailed comments and supporting data submitted by ASOEX, the Chilean Exporters Association. Specifically, Polcura Exportaciones S.A. urges the agency to reject the proposed change in the regulatory period because

1. The Proposed Rule imposes marketing order standards on Chilean supplies when no domestic varieties are available, and therefore constitutes a non-tariff barrier contrary to the terms of WTO Agreements and the U.S.-Chile Free Trade Agreement.
2. The Proposed Rule assesses inspection fees starting April 1 when no domestic supplies are being so charged, and thereby violates Article III and Article VIII of GATT 1994.
3. The change in the beginning effective date of Marketing Order 925 and Table Grape Import Regulation 4 from April 20 to April 1 will have a direct negative impact on our business. Polcura Exportaciones S.A. ships 255,000 of fresh table grapes to the U.S. from April 1 to April 20. If the Proposed Rule should be adopted, the estimated value of the table grapes to be excluded from shipment is US\$ 520,000. The Proposed Rule does not contain any evidence of circumvention by Chilean table grapes sufficient to warrant the proposed change.
4. The change in date from April 20 to April 1 will create an artificial shortage of table grapes since there is no other commercially significant and reliable supply from any source other than Chile.

5. The Chilean grapes supplied from April 1 to the earliest commercially significant supplies of grapes from Coachella Valley in California meet marketing specifications from retail chains that are more stringent in some respects than the marketing order requirements.
6. The proposed change cannot be validly based on a 20 year-old survey of cold storage practices.
7. The proposed change can not be justified under the criteria established by the AMAA for a change in the beginning effective date of Marketing Order 925 or the companion Table Grape Import Regulation 4 in view of the record prices received by Coachella Valley growers in the last two seasons.

Respectfully submitted,

Polcura Exportaciones S.A.
